

Residency Program Introduction 2024

Oksana Karpov D.O; FACP; FACOI; M.S.Med.Ed.

Program Director

INDIANA UNIVERSITY
SCHOOL OF MEDICINE
SOUTHWEST INDIANA INTERNAL MEDICINE RESIDENCY

Our Mission:

The program is designed to address the primary care shortage by training general internal medicine physicians for the region. Our residents will be educated to lead care teams, improve quality of care, champion organizational initiatives that reflect our clinical learning environment.

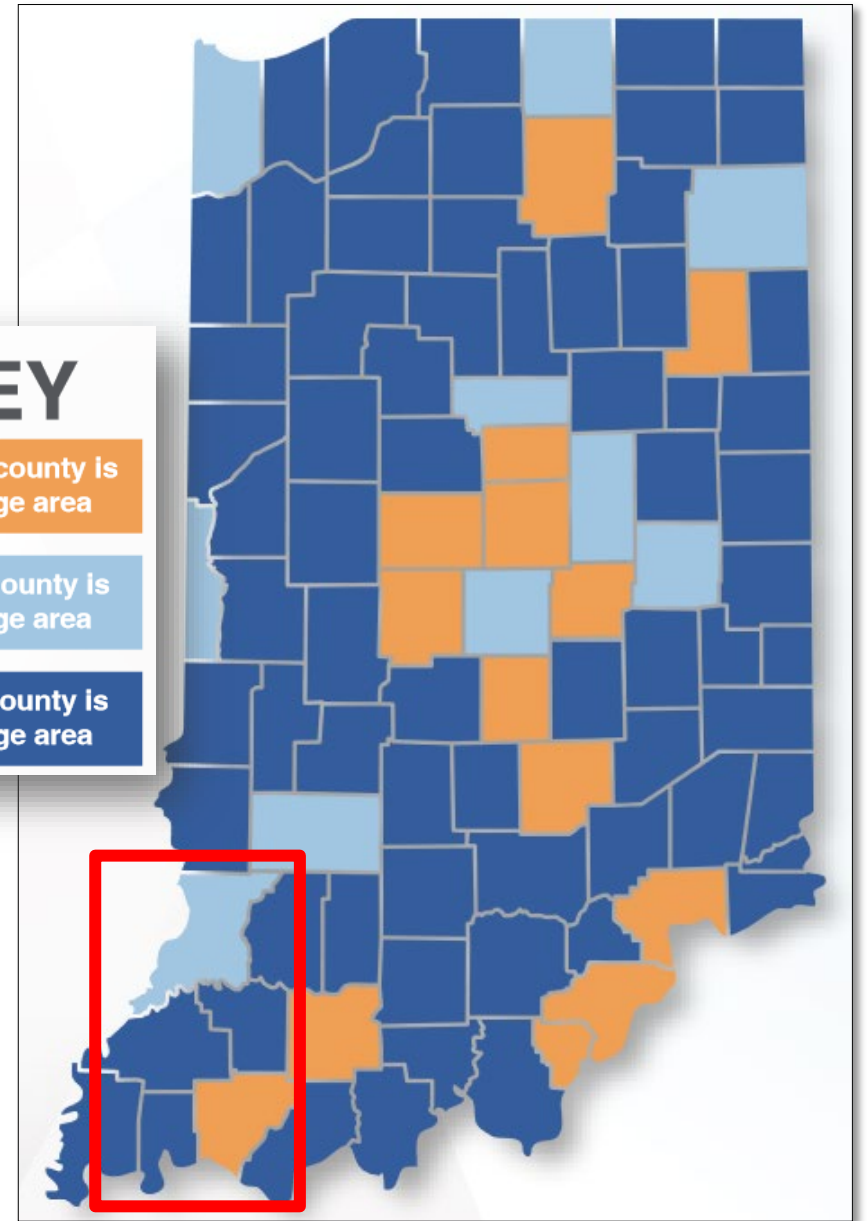

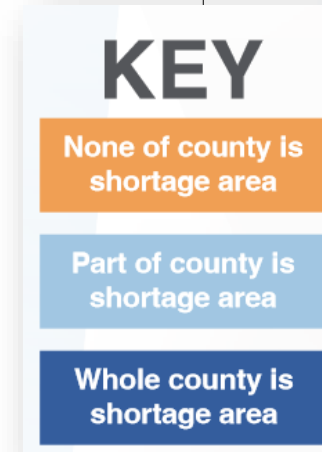

Who We Are: Accolades

Mission Scope and Impact

The program is designed to address the primary care shortage by training general internal medicine physicians for the region.

Who We Are: SIGMEC

The Southwestern Indiana Graduate Medical Education Consortium's goal is to provide graduate medical education, attract new physicians to Southwestern Indiana, and increase retention of healthcare providers in the area

SIGMEC represents four hospitals that have partnered with the Indiana University School of Medicine

Who We Are: SIGMEC

The Consortium:

Ascension St. Vincent, Evansville (500 beds)

Deaconess Hospital, Evansville (550 beds)

Good Samaritan Hospital, Vincennes (230 beds)

Memorial Hospital, Jasper (140 beds)

Who We Are: Indiana University School of Medicine

- ✓ Sponsored by Indiana University
- ✓ We are *NOT* an affiliate

Access to all IU medical education and scholarly resources

Our residents are IU employees competitive salary and benefits

Our residents will graduate with IU diplomas

Consistent influx of medical students

Stone Family Center for Health Sciences

Who We Are: SWIM

THE IUSM SIGMEC Internal Medicine Residency at Good Samaritan VA Evansville and Deaconess Hospitals is uniquely situated to provide a superior educational experience for Southern Indiana's first Internal Medicine Residency Program.

With a focus on primary care, the hospitals complement one another well.

SWIM

Southwest Internal Medicine Residency:

- Designed to train primary care while providing excellent, well-rounded training.
- We are a unique community program.
- With a small primary care provider base and even smaller Internal Medicine capacity, current limited access to care ensures a large, medically and socioeconomically diverse patient base.

SWIM Culture

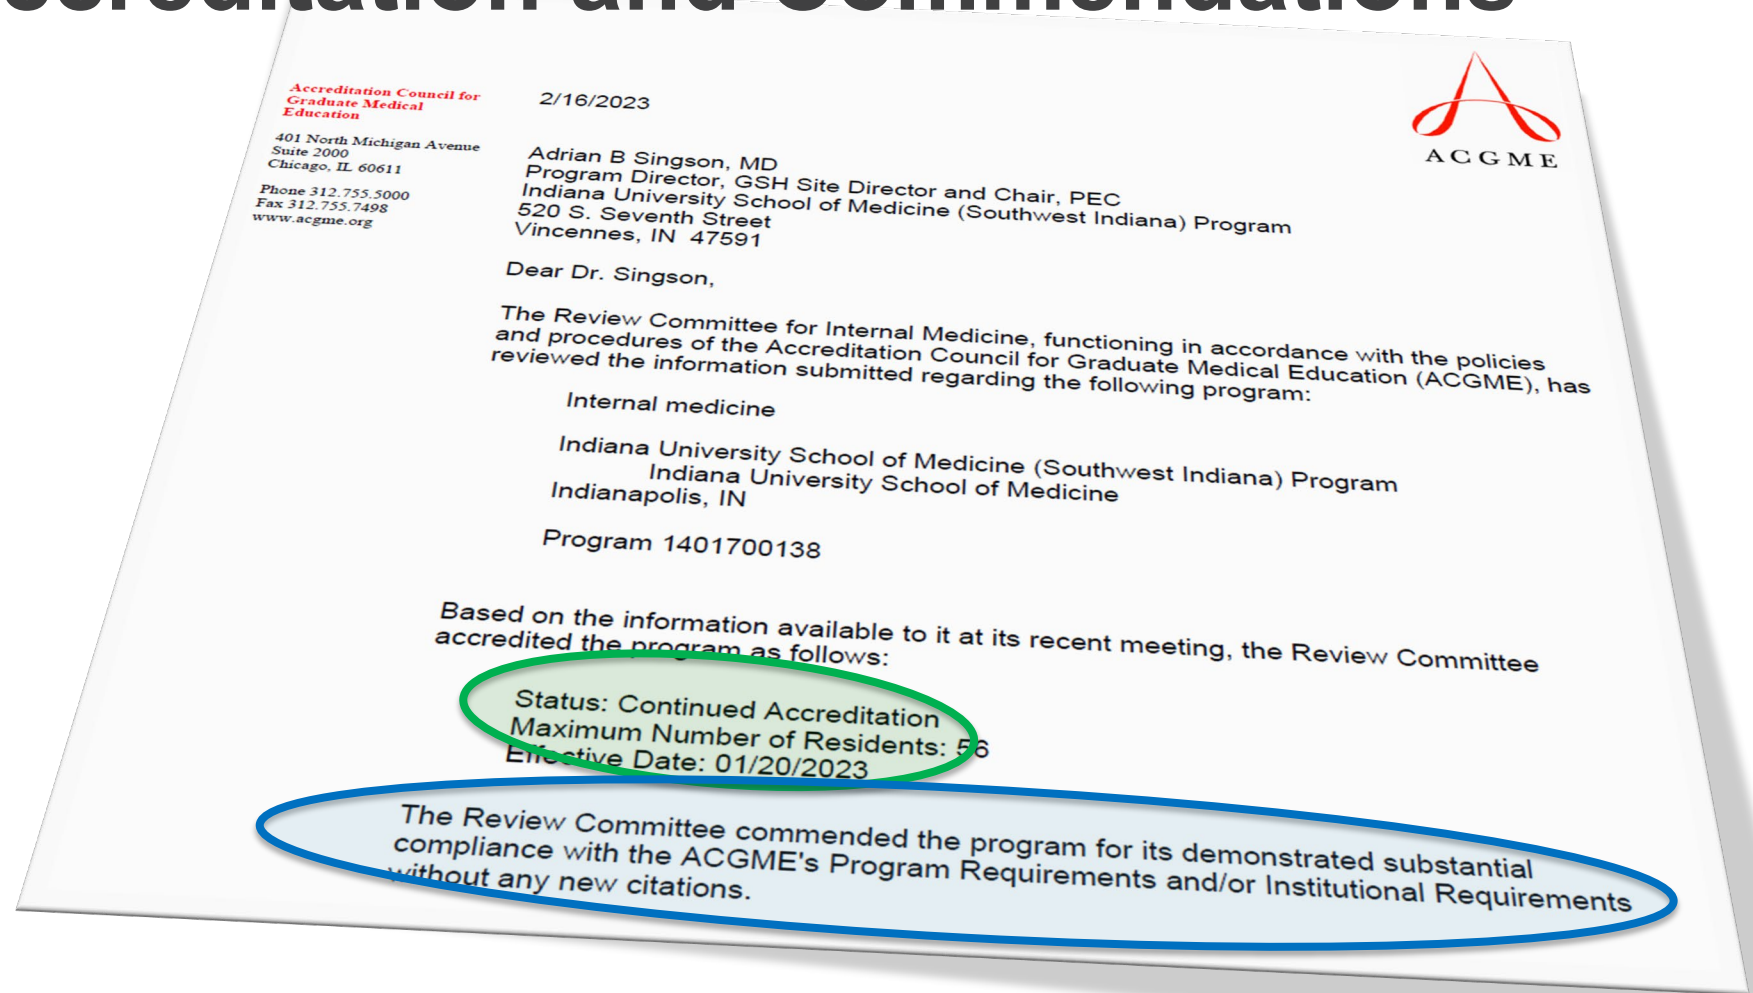

One of the most important things to us because **it is WHO WE ARE**, and therefore it is imperative that the right conditions are continued to be fostered to allow the program culture to flourish.

We are a learning laboratory for innovation in patient care, medical education and scholarly inquiry.

This makes our program **GROW COLLECTIVELY TOGETHER!**

Who We Are: ACGME Accreditation and Commendations

Who We Are: Program Leadership Team

Experienced Faculty for Our Mission

- Faculty members with prior Program Director and Clinic Director experiences.
- Sub-specialists and core-faculty with robust clinical experience.
- Faculty members with prior Residency-Faculty Practice medical director experience.

Who We Are: Program Leadership

Who We Are: Program Administrators

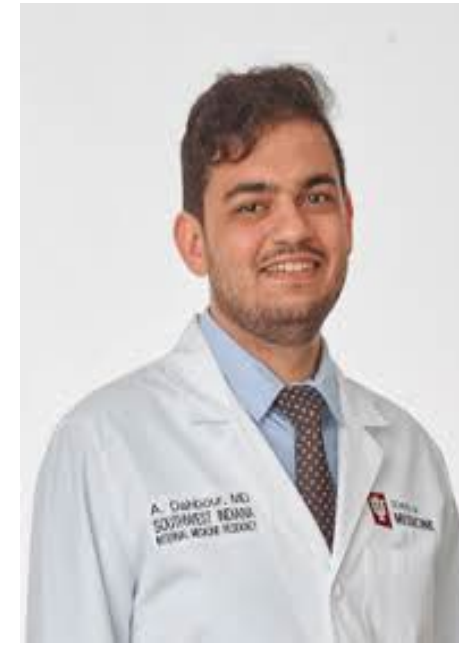

Marissa Hollensteiner

Program Coordinator Assistant

Who We Are: Chief Residents

2024-2025 Chiefs

Dr. Devon Fetters & Spencer Bonnerup

Dr. Aladdin Dahbour

Who We Are: Program Leadership Team

Faculty Involvement at the National Level

- Leaders in APDIM and ACOI
- Involved in AIAMC and ACP, ACOI
- Faculty members consistently encourage resident scholarship and participation at national-level conferences

American College of Osteopathic Internists

ACP IN Doctor's Dilemma 2024

Congratulations to the Southwest IM Program for winning the annual Doctor's Dilemma competition at the American College of Physicians' Indiana Chapter meeting last Friday! SWIM beat out the other six teams and will represent Indiana at the ACP Annual Meeting in New Orleans next spring.

Great work, Dr. Karpov and team! This is a huge accomplishment!

**Matt Neal
IUSM Assistant Dean of GME**

Where We Are Going: The Future

The SIGMEC Consortium:

We are building the template for future expansion programs
Indiana University has committed support personnel, monies, and resources to ensure the academic and clinical success of the programs in the consortium

Wrapping It All Up:

We are young and established.

Accomplished residents.

Distinguished faculty.

We continue to provide superior educational experiences as a Southern Indiana's first Internal Medicine Residency Program.
